

**ANNOUNCEMENT AND REPORT
CONCERNING
ADVANCE PRICING AGREEMENTS**

March 27, 2017

This Announcement is issued pursuant to § 521(b) of Pub. L. 106-170, the Ticket to Work and Work Incentives Improvement Act of 1999, which requires the Secretary of the Treasury to report annually to the public concerning advance pricing agreements (APAs) and the Advance Pricing and Mutual Agreement Program (APMA Program), formerly known as the Advance Pricing Agreement Program (APA Program). The first report covered calendar years 1991 through 1999. Subsequent reports covered each calendar year 2000 through 2015 separately. This eighteenth report describes the experience, structure, and activities of the APMA Program during calendar year 2016. It does not provide guidance regarding the application of the arm's length standard.

Part I of this report includes information on the structure, composition, and operation of the APMA Program; Part II presents statistical data; and Part III includes general descriptions of various elements of the APAs executed in 2016, including types of transactions covered, transfer pricing methods used, and completion time.

Acting Director, Advance Pricing and Mutual Agreement Program

Part I. The APMA Program – Structure, Composition, and Operation

[PUB. L. 106-170 § 521(b)(2)(A)]

In February of 2012, the former APA Program was moved from the Office of Chief Counsel to the Office of Transfer Pricing Operations within the Large Business and International Division of the IRS and combined with the U.S. Competent Authority staff responsible for transfer pricing cases, thereby forming the APMA Program.

After the formation of the APMA Program, the team that developed the IRS position in a bilateral or multilateral case and finalized the APA with the taxpayer also became responsible for discussing the case and obtaining an agreement with the treaty partner. This compression of functions into a single APA team has helped to eliminate inefficiencies and has decreased the amount of time it takes to reach resolution once a case is set for discussion with the treaty partner.

As of December 30, 2016, the APMA Program was comprised of 62 team leaders, 20 economists, and 10 senior managers organized into 10 groups (7 team leader groups and 3 economist groups). Each team leader group has responsibility for cases involving certain countries with one of the economist groups also taking responsibility of a country. Because of the large volume of cases with certain treaty partners, some countries are the responsibility of more than one group. The APMA Program's main office is located in Washington, DC, and it also has a significant presence in San Francisco and the Los Angeles area.

On August 31, 2015, new revenue procedures governing MAP and APA applications were published in 2015-35 I.R.B. on pages 236 and 263, respectively. Revenue Procedure (Rev. Proc.) 2015-41 provides guidance and instructions on filing APA requests as well as guidance and information on the administration of APAs. Rev. Proc. 2015-41 updates and supersedes Rev. Proc. 2006-9, 2006-1 C.B. 278, as modified by Rev. Proc. 2008-31, 2008-1 C.B. 1133, which is also superseded. Rev. Proc. 2015-40 provides procedures and guidance on requesting assistance from the U.S. Competent Authority where the taxpayer believes that the actions of the United States or a treaty country result or will result in the taxpayer being subject to taxation not in accordance with the applicable U.S. tax treaty. Rev. Proc. 2015-40 updates and supersedes Rev. Proc. 2006-54, 2006-2 C.B. 1035.

The model APA agreement, which was last significantly revised in 2009, is currently under review for future changes. The 2009 model appears in this report as Appendix 1. A list of primary APMA contacts is available at <https://www.irs.gov/businesses/corporations/apma-contacts>.

¹ The first APA Statutory Report, which compiled APA data from 1991-1999, did not report the cumulative number of applications for those years by submission type, so the cumulative totals cannot be reported in that manner.

**APAs Executed
2007-2016**

Of the 86 agreements executed in 2016, 41 percent were new APAs (*i.e.*, not a renewal of a prior APA). This was a slight increase from the 40 percent executed in 2015.

**Bilateral APAs
Executed by Country 2016**

As the chart above illustrates, nearly three quarters of the total number of bilateral APAs executed in 2016 involved the United States entering into mutual agreements with either Japan or Canada.

**Pending APAs
2007-2016**

The number of pending APAs dropped slightly from 2015 to 2016 with Japan and Canada continuing to account for almost half of all pending bilateral APAs.

Part III. General Descriptions of APAs Executed in 2016
[Pub. L. 106-170 § 521(b)(2)(D) and (E)]

Nature of the Relationships
§ 521(b)(2)(D)(i)

Relationships between Controlled Parties in 2016

As in prior years, more than half of the APAs executed in 2016 involved transactions between non-U.S. parents and U.S. subsidiaries.

Covered Transactions, Functions and Risks, and Tested Parties
§ 521(b)(2)(D)(ii-iii)

Types of Covered Transactions in 2016

Although the majority of transactions⁶ covered in APAs executed in 2016 involve the sale of tangible goods and the provision of services, the IRS also has successfully completed numerous APAs involving the use of intangible property. While transactions involving intangibles may be more challenging and represent a smaller percentage of the covered transactions in 2016 (20 percent), the IRS continues to seek opportunities to work with taxpayers and treaty partners to provide prospective certainty for such transactions wherever appropriate.

⁶ APAs often cover more than one type of transaction.

In the majority of APAs, the covered transactions involve numerous business functions and risks. For instance, with respect to functions, APAs involving manufactured products typically involve a controlled group that conducts research and development (R&D), engages in product design and engineering, manufactures the product, markets and distributes the product, and performs support functions such as legal, finance, and human resources services. Regarding risks, the controlled group may assume a variety of risks including market risks, R&D risks, financial risks, credit and collection risks, product liability risks, and general business risks. In the APA evaluation process, a significant amount of time and effort is devoted to understanding how the functions and risks are allocated amongst the controlled group of companies that are party to the covered transactions. Generally, for methods requiring selection of a tested party, the tested party that is chosen will be the least complex of the controlled taxpayers.

Types of Tested Parties in 2016

75 percent of the tested parties in 2016⁷ were U.S. distributors, U.S. manufacturers, or U.S. service providers.

Transfer Pricing Methods Used § 521(b)(2)(D)(iv)

Consistent with prior years, in 2016, the primary transfer pricing method (TPM) used for both the sale of tangible property and the use of intangible property was the comparable profits method/transactional net margin method (CPM/TNMM). The CPM/TNMM was used for 89 percent of transfers of tangible and intangible property while all other methods combined accounted for the other 11 percent of such transactions.

For covered transfers of tangible and intangible property that used the CPM/TNMM, an operating margin (OM) continues to be the most common profit level indicator (PLI) used to benchmark results. It was utilized 67 percent of the time. Other PLIs, such as the Berry Ratio and Return on Assets or Capital Employed, made up the other 33 percent. As used here, OM

⁷ Not all APAs executed in 2016 involved a tested party.

means the ratio of operating profits to sales,⁸ and “Berry Ratio” means the ratio of gross profit to operating expenses.⁹ The majority of services transactions (76 percent) also used the CPM/TNMM, and OM was the most common PLI (used 43 percent of the time).¹⁰

Sources of Comparables, Comparables Selection Criteria, and Nature of Adjustments to Comparables or Tested Party Data
§ 521(b)(2)(D)(v-vii)

For the APAs executed in 2016 that used external comparable data in the analysis, the most widely used data source for comparables was Standard and Poor’s Compustat/Capital IQ database. Other sources were also used in appropriate cases (*e.g.*, where the tested party was not the U.S. entity or transaction-based methods were applied). The other more commonly used databases are listed in the table below.

Table 5: Sources of Comparable Data

Avention (formerly known as OneSource)	Mergent
Bloomberg	Orbis
Disclosure	Recap
Global Vantage	RoyaltySource
ktMINE	RoyaltyStat
LoanConnector	Worldscope

In making comparability adjustments, the standard balance sheet adjustments identified in Treas. Reg. § 1.482-1(d) and § 1.482-5(c), including adjustments for differing amounts of payables, receivables, and inventory, were made in the majority of cases. Where appropriate, adjustments for different accounting practices were made to convert from LIFO to FIFO inventory accounting, and a small number of cases also involved the accounting reclassification of expenses, *e.g.*, from COGS to operating expenses.

Ranges, Targets, and Adjustment Mechanisms
§ 521(b)(2)(D)(viii-ix)

The majority of transactions covered in APAs target an interquartile range as described in Treas. Reg. § 1.482-1(e)(2)(iii)(C). Where the transaction involves a royalty payment for the use of intangible property, both specific royalty rates and ranges have been used. In some cases where the covered transaction is the payment of a royalty based solely on external royalty agreements, a secondary method, *e.g.*, a test of the post-royalty operating margin, has also been used. The testing periods of the APAs executed in 2016 were either: (1) a single year, (2) the term of the APA only, or (3) the term of the APA plus rollback years.

⁸ See Treas. Reg. § 1.482-5(b)(4)(ii)(A).

⁹ See Treas. Reg. § 1.482-5(b)(4)(ii)(B).

¹⁰ In 2016, the majority of the APAs that covered services transactions also included tangible/intangible transactions and were not tested under a separate PLI.

APAs executed in 2016 included a number of mechanisms for making adjustments to tested party results when the results fall outside the range or do not match the point required by the APA. The following are examples of the mechanisms used: an adjustment bringing the tested party's results to the closer edge of the range applied to the results of a single year; an adjustment to the closer edge of the range applied to the results over the APA term; an adjustment to the specified point or royalty rate; or an adjustment to the median of the range for a single year.

Critical Assumptions
§ 521(b)(2)(D)(v)

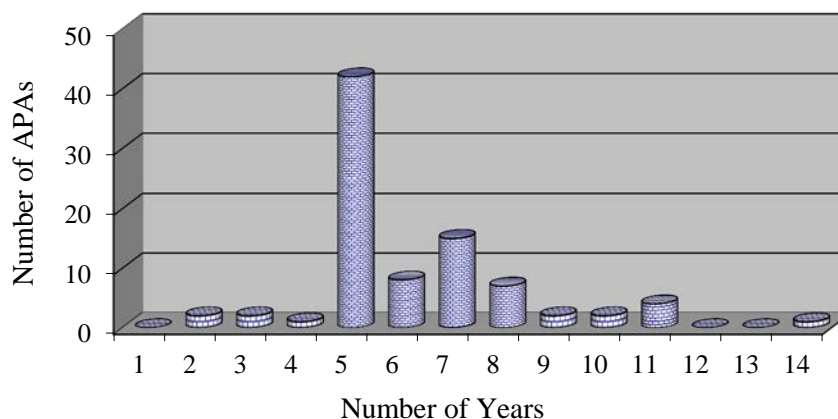

The model APA used by the IRS (included as Appendix 1 of this report) includes a standard critical assumption that there will be no material changes to the taxpayer's business or to its tax or financial accounting practices during the APA term. Each of the APAs executed in 2016 included this standard critical assumption. A few bilateral cases have included critical assumptions tied either to the taxpayer's profitability in a certain year or over the term of the APA, or to the amount of non-covered transactions as a percentage of the taxpayer's revenue. Pursuant to § 7.06(3) of Rev. Proc. 2015-41, 2015 I.R.B. 263, APMA will cancel an APA in the event of a failure of a critical assumption unless the parties agree to revise the APA.

Term Length of APAs Executed in 2016

As described in § 3.03(1) of Rev. Proc. 2015-41, taxpayers should request an APA term that would cover at least 5 prospective years and may also request that the APA be “rolled back” to cover one or more earlier taxable years, although the appropriate APA term is decided on a case-by-case basis. Of the APAs executed in 2016, only 20 percent included rollback years. A substantial number of those APAs with terms of greater than 5 years were submitted as a request for a 5-year term, and the additional years were agreed to between the taxpayer and the IRS (or, in the case of a bilateral APA, between the IRS and the foreign government upon the taxpayer’s request) to ensure a reasonable amount of prospectivity in the APA term.

Amount of Time Taken to Complete New and Renewal APAs § 521(b)(2)(E)

Table 7: Months to Complete New and Renewal APAs Executed in 2016

	Unilateral		Bilateral		Unilateral & Bilateral	
	Average	Median	Average	Median	Average	Median
New	33.9	23.4	50.5	48.8	48.7	46.7

New & Renewal	24.1	15.4	42.4	35.6	37.9	32.8

Months to Complete New and Renewal APAs Executed in 2016

The median time required to complete an APA in 2016 increased slightly from 31.9 months in 2015 to 32.8 months in 2016.

Efforts to Ensure Compliance with APAs § 521(b)(2)(F)

As described in § 7.02 (1) of Rev. Proc. 2015-41, taxpayers are required to file annual reports to demonstrate compliance with the terms and conditions of their APA. The filing and review of these annual reports are critical parts of the APA process. Through annual report review, the APMA Program monitors taxpayer compliance with APAs on a contemporaneous basis. Annual report review also provides current information on the success or problems associated with the various TPMs adopted in the APA process.

Each annual report received by the APMA Program is assigned to a designated APMA team leader. Whenever possible, annual report reviews are assigned to the team leader who worked the case, or another staff member who is already familiar with the relevant facts and terms of the APA. Other team leaders and economists may assist the assigned staff member as well. The annual report is also sent to the field personnel with exam jurisdiction over the taxpayer. The field personnel conduct a compliance review and coordinate with APMA personnel to resolve any questions or problems that might arise.

Nature of Documentation Required in Annual Report § 521(b)(2)(D)(xi)

APA agreements require taxpayers to file timely and complete annual reports describing their operations and demonstrating compliance with the APA's terms and conditions. Not every annual report will include each of the items listed in the following table¹¹; they are required where the facts demonstrate a need for such documentation.

¹¹ The source of this list is the 2009 APA Model Agreement.

1.	Statement regarding all material differences between Taxpayer's business operations during APA year and description of Taxpayer's business operations contained in Taxpayer's APA request. If there are no material differences, a statement to that effect.
2.	Statement concerning all material changes in Taxpayer's accounting methods and classifications, and methods of estimation, from those described or used in Taxpayer's request for the APA. If there has been no material change in accounting methods and classifications or methods of estimation, a statement to that effect.
3.	Any change to the taxpayer notice information.
4.	Description of any failure to meet critical assumptions. If there has been none, a statement to that effect.
5.	Statement identifying whether or not any material information submitted while the APA request was pending is discovered to be false, incorrect, or incomplete.
6.	The amount, reason for, and financial analysis of any compensating adjustment, for the APA year, including but not limited to: the amounts paid or received by each affected entity; the character (such as capital or ordinary expense) and country source of the funds transferred, and the specific line item(s) of any affected U.S. tax return; and any change to any entity classification for federal income tax purposes of any member of Taxpayer's group that is relevant to the APA.
7.	The amounts, description, reason for, and financial analysis of any book-tax difference relevant to the TPM for the APA year, as reflected on Schedule M-1 or Schedule M-3 of the U.S. return for the APA year.
8.	Statement regarding whether Taxpayer contemplates requesting, or has requested, to renew, modify, or cancel the APA.
9.	Financial statements and any necessary account detail to show compliance with the TPM, with a copy of the opinion from an independent certified public accountant or other documentation required by paragraph 5(f) of the APA.
10.	Financial analysis demonstrating Taxpayer's compliance with TPM.
11.	Organizational chart.
12.	A copy of the APA and any amendment.
13.	A penalty of perjury statement.

Approaches for Sharing of Currency or Other Risks
§ 521(b)(2)(D)(xii)

In appropriate cases, APAs may provide specific approaches for dealing with currency risk, such as adjustment mechanisms and/or critical assumptions.

The Arm's Length Range is between ___ and ___, and the Median of the Arm's Length Range is ___.

- **CPM using an Operating Margin PLI**

The TPM is the comparable profits method (CPM). The profit level indicator is an operating margin. The Tested Party's Operating Margin is defined as follows for any APA Year: the Tested Party's operating profit divided by its sales revenue (as those terms are defined in Treasury Regulations section 1.482-5(d)(1) and (4)) for that APA Year. The Arm's Length Range is between ___% and ___%, and the Median of the Arm's Length Range is ___%.

- **CPM using a Three-year Rolling Average Operating Margin PLI**

The TPM is the comparable profits method (CPM). The profit level indicator is an operating margin. The Tested Party's Three-Year Rolling Average operating margin is defined as follows for any APA Year: the sum of the Tested Party's operating profit (within the meaning of Treasury Regulation section 1.482-5(d)(4)) for that APA Year and the two preceding years, divided by the sum of its sales revenue (within the meaning of Treasury Regulation section 1.482-5(d)(1)) for that APA Year and the two preceding years. The Arm's Length Range is between ___% and ___%, and the Median of the Arm's Length Range is ___%.

- **Residual Profit Split Method**

The TPM is the residual profit split method. [*Insert description of routine profit level determinations and residual profit-split mechanism*].

[*Insert additional provisions as needed.*]

4. Application of TPM.

For any APA Year, if the results of Taxpayer's actual transactions produce a [price per unit, royalty rate for the Covered Transactions] [or] [Gross Margin, Cost Plus Markup, Berry Ratio, Operating Margin, Three-Year Rolling Average Operating Margin for the Tested Party] within

the Arm's Length Range, then the amounts reported on Taxpayer's U.S. Return must clearly reflect such results.

For any APA year, if the results of Taxpayer's actual transactions produce a [price per unit, royalty rate] [or] [Gross Margin, Cost Plus Markup, Berry Ratio, Operating Margin, Three-Year Rolling Average Operating Margin for the Tested Party] outside the Arm's Length Range, then amounts reported on Taxpayer's U.S. Return must clearly reflect an adjustment that brings the [price per unit, royalty rate] [or] [Tested Party's Gross Margin, Cost Plus Markup, Berry Ratio, Operating Margin, Three-Year Rolling Average Operating Margin] to the Median.

For purposes of this Appendix A, the "results of Taxpayer's actual transactions" means the results reflected in Taxpayer's and Tested Party's books and records as computed under U.S. GAAP [*insert another relevant accounting standard if applicable*], with the following adjustments:

- (a) [The fair value of stock-based compensation as disclosed in the Tested Party's audited financial statements shall be treated as an operating expense]; and
- (b) To the extent that the results in any prior APA Year are relevant (for example, to compute a multi-year average), such results shall be adjusted to reflect the amount of any adjustment made for that prior APA Year under this Appendix A.

5. APA Revenue Procedure Treatment

If Taxpayer makes an adjustment under paragraph 4 of this Appendix A (a "primary adjustment"), Taxpayer and its related foreign entity may elect APA Revenue Procedure Treatment in accordance with section 11.02(3) of Revenue Procedure 2006-9 and avoid the possible adverse tax consequences of a secondary adjustment that would otherwise follow the primary adjustment.

[Insert additional provisions as needed.]

APPENDIX B

CRITICAL ASSUMPTIONS

This APA's critical assumptions are:

1. The business activities, functions performed, risks assumed, assets employed, and financial and tax accounting methods and classifications [and methods of estimation] of Taxpayer in relation to the Covered Transactions will remain materially the same as described or used in Taxpayer's APA Request. A mere change in business results will not be a material change.

[Insert additional provisions as needed.]
